The compilation Dancehall DJs (Ras) features the tune Nice Up Dance by Natural Beauty. Does anyone know if this group recorded anything else and how to get it if so? The same compilation also features Mother Culture by Sister Carol. Any opinions on which Sister Carol albums to get? Thanks Erik Sent via Deja.com <http://www.deja.com/> Before you buy.

The same compilation also features Mother Culture by Sister Carol. Any opinions on which Sister Carol albums to get? Definitely grab a copy of Isis: The Original Womb-Man . Superb from beginning to end and certainly one of my favourite cds too. Billy
